CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

2. BASIS OF PREPARATION

The unaudited condensed consolidated financial statements for the six months ended 30 September 2021 have been prepared in accordance with Hong Kong Accounting Standard 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("**HKICPA**") and the applicable disclosure requirements of the GEM Listing Rules. The unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the year ended 31 March 2021 which have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("**HKFRSs**").

Other than changes in accounting policies resulting from application of new and amendments to HKFRSs, the accounting policies and methods of computation used in the unaudited condensed consolidated financial statements for the six months ended 30 September 2021 are consistent with those applied in the audited consolidated financial statements for the year ended 31 March 2021.

The unaudited condensed consolidated financial statements have been prepared under the historical cost convention.

The preparation of the unaudited condensed consolidated financial statements in conformity with the HKFRSs requires the use of certain critical accounting estimates. It also requires the management to exercise their judgements in the process of applying the Group's accounting policies.

3. APPLICATION OF NEW AND AMENDMENTS TO HKFRSs

Amendment to HKFRS 16	Covid-19-Related Rent Concessions beyond 30 June 2021

The Group has adopted these new standards, amendments of standards and annual improvements and the adoption of these new standards, amendments of standards and annual improvements do not have significant impacts on the Group's unaudited condensed consolidated financial statements.

4. REVENUE

Revenue represents the fair value of amounts received and receivable by the Group in respect of the revenue of building renovation and construction services to external customers. The Group's operations are solely derived from the building renovation and construction services in Hong Kong during the period. For the purposes of resources allocation and performance assessment, the chief operating decision maker (the "**CODM**"), being the executive directors of the Company, reviews the overall results and financial position of the Group as a whole prepared based on the same set of accounting policies. Accordingly, the Group has only one single operating segment and no further analysis of this single segment is presented.

Hong Kong Profits Tax				
— Current period	838	950	1,531	1,224

On 21 March 2018, the Hong Kong Legislative Council passed The Inland Revenue (Amendment) (No. 7) Bill 2017 (the "Bill") which introduces the two-tiered profits tax rates regime. The Bill was signed into law on 28 March 2018 and was gazetted on the following day. Under the two-tiered profits tax rates regime, the first HK\$2 million of profits of the qualifying group entity will be taxed at 8.25%, and profits above HK\$2 million will be taxed at 16.5%. The profits of group entities not qualifying for the two-tiered profits tax rates regime will continue to be taxed at a flat rate of 16.5%.

Accordingly, Hong Kong Profits Tax of a subsidiary, namely Fulam Construction Engineering Company Limited, for both periods is calculated at 8.25% on the first HK\$2 million of the estimated assessable profits and at 16.5% on the estimated assessable profits above HK\$2 million. For other entities of the Group, they are taxed at a flat rate of 16.5% for both periods.

The Board does not recommend the payment of an interim dividend for the six months ended 30 September 2021 (2020: nil).

8. EARNINGS PER SHARE

The calculations of basic earnings per share attributable to the owners of the Company for the three months and six months ended 30 September 2021 are based on the followings:

	Three months ended 30 September		Six months ended 30 September	
	2021 HK\$'000 (Unaudited)	2020 HK\$'000 (Unaudited)	2021 HK\$'000 (Unaudited)	2020 HK\$'000 (Unaudited)
Earnings:				
Earnings for the purpose of basic earnings per share (profit for the period)	4,051	3,093	8,289	5,615
Number of shares:				
Weighted average number of ordinary shares for the purpose of basic earnings per share ('000)	800,000	800,000	800,000	800,000

No diluted earnings per share for both periods were presented as there were no potential ordinary shares outstanding.

9. TRADE AND OTHER RECEIVABLES

	30 September 2021 HK\$'000 (Unaudited)	31 March 2021 HK\$'000 (Audited)

Less: allowance for credit loss	(315)	(371)
	32,605	42,333
Other receivables	14,483	15,188
Deposits for surety bonds (note i)	17,672	15,533

Rental, utility and other deposits	2,247	1,147
	50,482	38,323
Less: allowance for credit loss	(561)	(561)
	49,921	37,762
Total trade and other receivables	82,526	80,095

Note:

- (i) The amount represents the deposits as collateral security for surety bonds in respect of construction contracts issued by insurance companies in favour of the Group's customers. The deposits will be refunded to the Group upon the practical completion or at the end of the defect liability period of the relevant construction contracts.

Before accepting any new customer, the Group assesses the potential customer's credit quality and defines credit limits by customer. The majority of the Group's trade receivables that are past due but not impaired have good credit quality with reference to respective settlement history.

The Group allows a credit period of 7 to 45 days to its customers for its trade receivables.

The following is an ageing analysis of trade receivables net of allowance for doubtful debts presented based on invoice dates at the end of the reporting period:

	30 September 2021 HK\$'000 (Unaudited)	31 March 2021 HK\$'000 (Audited)
0–30 days	18,366	32,043
31–60 days	3,455	4,399
61–90 days	2,439	366
91–120 days	145	204

10. CONTRACT ASSETS

	30 September 2021 HK\$'000 (Unaudited)	31 March 2021 HK\$'000 (Audited)
Contract assets	147,503	132,598
Less: allowance for credit loss	(2,307)	(2,251)
	145,196	130,347
Analysed as current:		
Unbilled revenue of building renovation and construction services	93,822	68,291
Unbilled retention receivables of building renovation and construction services	51,374	62,056
	145,196	130,347

The contract assets primarily relate to the Group's right to consideration for work completed and not billed because the rights are conditioned on the Group's future performance. The contract assets are transferred to trade receivables when the rights become unconditional where the Group is entitled to issue invoices to bill the customers.

Typical payment terms which impact the amount of contract assets recognised are as follows:

- The Group's construction contracts include payment schedules which require stage payments over the construction services period once certain specified milestones are reached.
- The Group also typically agrees to a retention period for 5% to 10% of the contract value. This amount is included in contract assets until the end of the defect liability period as the Group's entitlement to this final payment is conditional on customer acceptance usually being 1 to 2 years from the date of completion of construction projects.

The credit period on trade payables ranges from 0 to 30 days.

The following is an ageing analysis of trade payables presented based on the invoice dates at the end of the reporting period:

The range of effective interest rates on bank borrowings as at 30 September 2021 (which are also equal to contracted interest rates) is 2.0% to 5.5% per annum.

These bank borrowings are drawn under banking facilities.

As at 30 September 2021, except for a banking facility covering a bank loan of HK\$20,000,000 which is secured by personal guarantees provided by the executive Directors of the Company, the remaining banking facilities are secured by a legal charge over the property held by Fulam Construction Engineering Company Limited, a subsidiary of the Group and pledged bank deposits.

The Group is an established main contractor for the provision of renovation and maintenance works, alteration and addition works ("**RMAA**") and fitting-out works, and site formation and geotechnical works in Hong Kong. The Group is responsible for the overall management, implementation and supervision of projects. The Group focuses on the management of projects, development of work programmes, procurement of works materials, operation of site works, co-ordination with the customers or their consultants and the environmental, safety and quality control of the works carried by the employees and the subcontractors.

In respect of renovation and maintenance works, the Group encompasses the general upkeep, restoration and improvement of existing facilities and components of the buildings and their surroundings. As for alteration and addition works and fitting-out works, the Group revolves around the alteration and addition of building layout and structural works and decoration works to the interior spaces to the existing premises.

For the six months ended 30 September 2021, there were 30 projects (2020: 35 projects) with revenue contribution undertaken by the Group. During the six months ended 30 September 2021, the Group was awarded 9 new projects, with total original contract sum of approximately \$78.9 million.

Since the first confirmed case of COVID-19 in Hong Kong was reported in January 2020, the Directors have been closely monitoring the development of the outbreak of COVID-19 (the "**Pandemic**") and keeping communication with the Group's customers, suppliers and subcontractors proactively and regularly to ascertain whether the Pandemic would lead to (i) any significant impact on the status or progress of ongoing projects; and (ii) any supply shortages on construction materials and labour resources.

In view of the ongoing Pandemic, the Directors have implemented the following policies to minimise the impact of the Pandemic on the Group's business operations:

- (i) to discuss and prepare the contingency plans during the planning stage of projects. The contingency plans would generally include the assignment of alternate personnel to replace any project team members in the event they have any respiratory symptom, and the details of alternate suppliers and subcontractors;

- (ii) to avoid shortage in supply of construction materials due to temporary closure of the suppliers' production facilities, transportation constraints or any disruption of the supply chain of construction materials, the Group would obtain more quotations from different suppliers for back-up purpose; and
- (iii) to ensure sufficient labour resources, the Group would obtain more quotations from different subcontractors for back-up purpose.

In addition, in response to the Pandemic, the Group have implemented the following precautionary measures:

- (i) require staff and workers who are not fully vaccinated to undergo compulsory testing regularly;
- (ii) require staff and visitors to wear a surgical mask when staying at office or work site at all times;
- (iii) monitor the stock level of personal care products (such as surgical masks and hand sanitisers);
- (iv) conduct mandatory daily temperature checks for staff and visitors in office and work sites;
- (v) arrange regular cleaning of office with appropriate disinfectant;
- (vi) require staff not to go to office when having respiratory symptoms, and work from home if feasible;
- (vii) require mandatory reporting by employees who (or their family members residing with them) travelled outside Hong Kong, and requiring 14 days' self-quarantine for those who (or whose family members residing with them) returned to Hong Kong;
- (viii) arrange laptops with remote access for employees who work from home;
- (ix) request subcontractors to withdraw their staff who travelled outside Hong Kong and returned to Hong Kong;
- (x) provide publicity materials on prevention of COVID-19 for all staff members;

- (xi) keep close communication with any staff at work sites who has been confirmed positive for COVID-19; and
- (xii) monitor and keep track of the development of the Pandemic in Hong Kong and update the Group's staff.

During the Relevant Period, none of the projects had been subject to significant delay or suspension of work due to the Pandemic. Notwithstanding that the Pandemic has slowed down the overall economy in Hong Kong, the Group's operations and financial performance had not been materially affected by the Pandemic. The Directors will continue to closely monitor the latest development of the Pandemic and assess and respond to its impact on the Group's results of operations, cash flows and financial condition.

Looking forward, the Directors consider that the future opportunities and challenges facing the Group will continue to be affected by the development of the property market in Hong Kong as well as factors affecting the labour costs and material costs. The Directors are of the view that the number of properties to be built and maintained in Hong Kong remains to be the key driver for the growth of the Hong Kong RMAA and fitting-out industry. With the Group's experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors under such future challenges that are commonly faced by all competitors, and the Group will continue to strengthen the market position in the industry and expand the market share. In addition, as disclosed in the announcement of the Company dated 11 August 2021, the application (the "**Application**") to the Stock Exchange for the transfer of the listing has lapsed and no resubmission has been made at this stage. The Board believes that the lapse of the Application has no material adverse impact on the financial or business operations of the Group. Going forward, the Group will continue to explore business and investment opportunities to further strengthen the Group's income stream. In this regard, the Group may consider whether any acquisitions, business rationalisation, fund raising and/or business diversification will be appropriate in order to enhance the long-term growth potential of the Group.

Such increase was mainly due to the commencement of more projects with larger contract sum during the six months ended 30 September 2021.

Cost of Sales

The Group's cost of sales remained stable at approximately HK\$110.1 million and HK\$110.0 million for the six months ended 30 September 2021 and 2020, respectively.

Gross Profit

The Group's gross profit increased by approximately HK\$5.3 million from approximately HK\$13.3 million for the six months ended 30 September 2020 to approximately HK\$18.5 million for the six months ended 30 September 2021. Such increase was mainly driven by the increase in revenue for the six months ended 30 September 2021 as discussed above. The Group's overall gross profit margin increased from approximately 10.8% for the six months ended 30 September 2020 to approximately 14.4% for the six months ended 30 September 2021 as the extent of increase in subcontracting charges and construction material costs was less than that of the increase in revenue for the six months ended 30 September 2021.

Other Incomes

The Group's other incomes decreased by approximately HK\$2.2 million from approximately HK\$2.2 million for the six months ended 30 September 2020 to approximately HK\$8,000 for the six months ended 30 September 2021. Other incomes for the six months ended 30 September 2020 primarily comprised the subsidy income received from the Government of the HKSAR under the Employment Support Scheme.

Other Expenses

The Group's other expenses represented the professional fees incurred for transfer of listing (the "**Transfer of Listing**") during the Relevant Period.

Administrative Expenses

Such increase was mainly attributable to the increase in staff costs paid to directors as there was temporary 30% salary reduction of the two executive Directors during the six months ended 30 September 2020 which was ended in March 2021.

Finance Costs

The Group's finance costs increased by approximately HK\$0.1 million or 10.0% from approximately HK\$1.0 million for the six months ended 30 September 2020 to approximately HK\$1.1 million for the six months ended 30 September 2021. Income Tax Expense

The Group's income tax expense increased by approximately HK\$0.3 million or 25.0% from approximately HK\$1.2 million for the six months ended 30 September 2020 to approximately HK\$1.5 million for the six months ended 30 September 2021. Such increase was mainly attributable to the increase in profit before taxation from approximately HK\$6.8 million for the six months ended 30 September 2020 to approximately HK\$9.8 million for the six months ended 30 September 2021.

Profit and Total Comprehensive Income for the period attributable to the owners of the Company

Such increase was primarily attributable to the net effect of (i) the increase in revenue and gross profit for the six months ended 30 September 2021; (ii) the decrease in profession fees incurred for the Transfer of Listing; (iii) the decrease in other incomes relating to the subsidy income, offset by the increase in the administrative expenses incurred by the Group for the six months ended 30 September 2021.
