MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

The Group is an established main contractor for the provision of RMAA and fitting-out works, site formation and geotechnical works, and new capital works in Hong Kong. The Group is responsible for the overall management, implementation and supervision of projects. The Group focuses on the management of projects, development of work programmes, procurement of works materials, operation of site works, co-ordination with the customers or their consultants and the environmental, safety and quality control of the works carried by the employees and the subcontractors. The Group also engages in property investment in Hong Kong and earns rental income.

In respect of renovation and maintenance works, the Group encompasses the general upkeep, restoration and improvement of existing facilities and components of the buildings and their surroundings. As for alteration and addition works and fitting-out works, the Group revolves around the alteration and addition of building layout and structural works and decoration works to the interior spaces to the existing premises.

For the nine months ended 31 December 2022, there were 47 projects (nine months ended 31 December 2021: 38 projects) with revenue contribution undertaken by the Group. During the nine months ended 31 December 2022, the Group was awarded 22 (nine months ended 31 December 2021: 18) new projects with total original contract sum of approximately HK\$268.7 million (nine months ended 31 December 2021: HK\$255.4 million).

Since the first confirmed case of COVID-19 in Hong Kong was reported in January 2020, the Directors have been closely monitoring the development of the outbreak of COVID-19 (the "**Pandemic**") and keeping communication with the Group's customers, suppliers and subcontractors proactively and regularly to ascertain whether the Pandemic would lead to (i) any significant impact on the status or progress of ongoing projects; and (ii) any supply shortages on construction materials and labour resources.

In view of the ongoing Pandemic, the Directors have implemented the following policies to minimise the impact of the Pandemic on the Group's business operations:

- (i) to discuss and prepare the contingency plans during the planning stage of projects. The contingency plans would generally include the assignment of alternate personnel to replace any project team members in the event they have any respiratory symptom, and the details of alternate suppliers and subcontractors;
- (ii) to avoid shortage in supply of construction materials due to temporary closure of the suppliers' production facilities, transportation constraints or any disruption of the supply chain of construction materials, the Group would obtain more quotations from different suppliers for back-up purpose; and
- (iii) to ensure sufficient labour resources, the Group would obtain more quotations from different subcontractors for back-up purpose.

In addition, in response to the Pandemic, the Group have implemented the following precautionary measures:

- (i) require staff and visitors to wear a surgical mask when staying at office or work site at all times;
- (ii) monitor the stock level of personal care products (such as surgical masks and hand sanitisers);
- (iii) arrange regular cleaning of office with appropriate disinfectant;
- (iv) require staff not to go to office when having respiratory symptoms, and work from home if feasible;
- (v) arrange laptops with remote access for employees who work from home;
- (vi) provide publicity materials on prevention of COVID-19 for all staff members;
- (vii) keep close communication with any staff at work sites who has been confirmed positive for COVID-19; and
- (viii) monitor and keep track of the development of the Pandemic in Hong Kong and update the Group's staff.

During the nine months ended 31 December 2022, none of the projects had been subject to significant delay or suspension of work due to the Pandemic. Notwithstanding that the Pandemic has slowed down the overall economy in Hong Kong, the Group's operations and financial performance had not been materially affected by the Pandemic. The Directors will continue to closely monitor the latest development of the Pandemic and assess and respond to its impact on the Group's results of operations, cash flows and financial condition.

Looking forward, the Directors consider that the future opportunities and challenges facing the Group will continue to be affected by the progress of recovery of Hong Kong from the Pandemic, which in turn affects the development of the construction industry in Hong Kong as well as labour costs and material costs. The Directors are of the view that the number of properties to be built and maintained in Hong Kong remains to be the key driver for the growth of the Hong Kong RMAA and fitting-out sector. With the Group's experienced management team and reputation in the market, the Directors consider that the Group is well-positioned to compete against its competitors under such future challenges that are commonly faced by all competitors, and the Group will continue to strengthen the market position in the industry and expand the market share. In addition, as disclosed in the Company's announcement dated 8 August 2022, on 8 August 2022 the Group acquired 25% of the issued share capital of Acasa Property Limited ("**Acasa**") which indirectly and wholly owned a piece of land located in Kimberley Street. Furthermore, as disclosed in the paragraph headed "Event After the Reporting Period" in this report below, subsequent to the nine months ended 31 December 2022, on 19 January 2023 the Group has completed the acquisition of an additional 25% of the issued share capital of Acasa and Acasa became a joint venture company owned as to 50% by the Company. The Board believes that these transactions give an opportunity for the Group to undertake more sizeable construction projects and to broaden the Group's customer base. Going forward, the Group will continue to explore business and investment opportunities to further strengthen the Group's income stream. In this regard, the Group may consider whether any acquisitions, business rationalisation, fund raising and/or business diversification will be appropriate in order to enhance the long-term growth potential of the Group.

FINANCIAL REVIEW

Revenue

The Group's revenue increased from approximately HK\$199.0 million for the nine months ended 31 December 2021 to approximately HK\$261.5 million for the nine months ended 31 December 2022, representing an increase of approximately HK\$62.5 million or 31.4%, which was mainly due to the commencement of more projects with larger contract sum during the nine months ended 31 December 2022.

Cost of sales

The Group's cost of sales increased from approximately HK\$170.4 million for the nine months ended 31 December 2021 to approximately HK\$227.1 million for the nine months ended 31 December 2022, representing an increase of approximately HK\$56.7 million or 33.3%. The increase in cost of sales was generally in line with the increase in revenue.

Gross profit

The Group's gross profit increased by approximately HK\$5.8 million or 20.3% from approximately HK\$28.6 million for the nine months ended 31 December 2021 to approximately HK\$34.4 million for the nine months ended 31 December 2022. The overall gross profit margin decreased slightly from approximately 14.4% for the nine months ended 31 December 2021 to approximately 13.2% for the nine months ended 31 December 2022 as the extent of increase in subcontracting charges and construction material costs was greater than that of the increase in revenue for the nine months ended 31 December 2022.

Other income

The Group's other income increased from approximately HK\$0.1 million for the nine months ended 31 December 2021 to approximately HK\$1.4 million for the nine months ended 31 December 2022. Other income for the nine months ended 31 December 2022 primarily comprised the subsidy income received from the Government of the HKSAR under the Employment Support Scheme.

Impairment losses under expected credit loss model, net of reversal

An amount of approximately HK\$0.6 million was recognised as impairment losses under expected credit loss model for the nine months ended 31 December 2022. The amount recognised was in respect of trade receivables and contract assets.

Other expenses

The Group's other expenses represented the professional fees incurred for transfer of listing (the "**Transfer of Listing**") during the nine months ended 31 December 2021. No such expenses were incurred during the nine months ended 31 December 2022.

Administrative expenses

The Group's administrative expenses primarily comprised staff costs, audit fee and other professional costs in relation to the compliance with the GEM Listing Rules. The Group's administrative expenses increased by approximately HK\$4.0 million or 33.6% from approximately HK\$11.9 million for the nine months ended 31 December 2021 to approximately HK\$15.9 million for the nine months ended 31 December 2022.

The increase was mainly attributable to the increase in (i) depreciation of right-of-use asset arising from a lease of property for operation; and (ii) staff costs.

Finance costs

The Group's finance costs increased by approximately HK\$1.7 million or 100.0% from approximately HK\$1.7 million for the nine months ended 31 December 2021 to approximately HK\$3.4 million for the nine months ended 31 December 2022. Such increase was mainly due to (i) the increase in usage of loan settlement for trade payables and factoring loan; and (ii) the finance costs charged for the subscription of a life insurance policy during the nine months ended 31 December 2022.

Income tax expense

The Group's income tax expense increased by approximately HK\$0.5 million or 21.7% from approximately HK\$2.3 million for the nine months ended 31 December 2021 to approximately HK\$2.8 million for the nine months ended 31 December 2022. Such increase was mainly attributable to the increase in profit before taxation during the period.

Profit and total comprehensive income for the period attributable to the owners of the Company

Profit for the period attributable to the owners of the Company increased by approximately HK\$0.9 million or 7.4% from approximately HK\$12.2 million for the nine months ended 31 December 2021 to approximately HK\$13.1 million for the nine months ended 31 December 2022.

Such increase was primarily attributable to the net effect of (i) the increase in revenue and gross profit for the nine months ended 31 December 2022; (ii) the decrease in professional fees incurred for the Transfer of Listing; (iii) the increase in other income relating to the subsidy income; offset by (iv) the increase in the administrative expenses and finance costs for the nine months ended 31 December 2022.

The total comprehensive income for the period attributable to the owners of the Company decreased by approximately HK\$1.4 million or 9.7% from approximately HK\$14.5 million for the nine months ended 31 December 2021 to approximately HK\$13.1 million for the nine months ended 31 December 2022.

Such decrease was attributable to the revaluation of property upon transfer to investment property during the nine months ended 31 December 2021 which was non-recurring in nature.

During the nine months ended 31 December 2022, saved for the acquisition of 25% of the issued share capital of Acasa as disclosed in the Company's announcement dated 8 August 2022, the Group did not have any material acquisitions or disposals of subsidiaries and affiliated companies.
